America's Ultimate Value in Cabinetry™

www.cnccabinetry.com

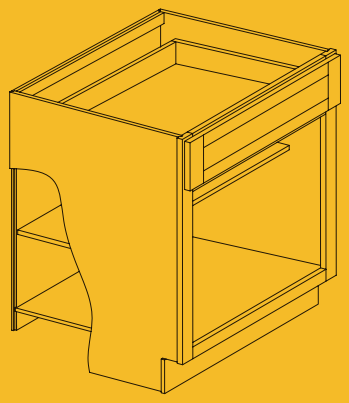
CNC Cabinetry was founded on the idea of making kitchen cabinets more accessible to all, by offering the ultimate value in design, quality and price.

For over 25 years, we've been providing kitchen and bath dealers, and the customers they serve, with the ultimate value in kitchen cabinets, countertops, and bathroom vanities.

Rather than tossing about meaningless boardroom phrases, we defined just what, exactly, "value" means.

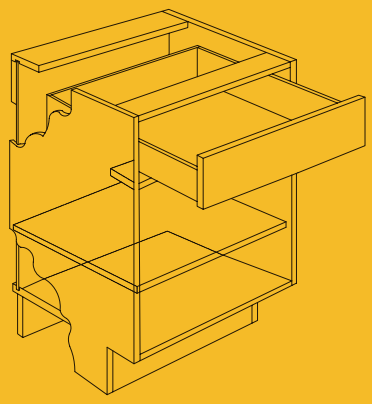
Providing value means being able to offer a vast, ever-expanding selection of progressively-designed door styles. Providing value means offering industry-leading turnaround times. Providing value means giving you the ability to talk to a real person who understands your style and your needs. Providing value means offering the most comprehensive range of products including framed domestic-style and frameless European-style cabinets, standard post-form and self-edge custom countertops - without ever sacrificing on quality. Providing value means delivering a product that our customers can be proud of, at a price that they want.

Because the bottom line is, an inviting kitchen is what makes a house a home. Let CNC inspire your next design with the design, durability, and, most of all, value to suit your taste.



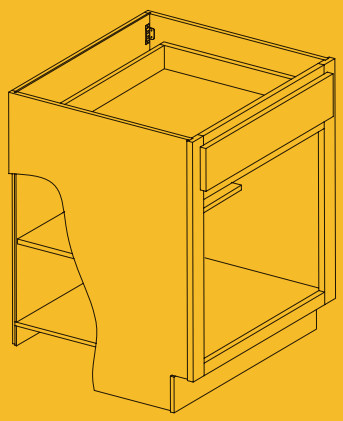
‹ Concord

The Concord series is our all-plywood line, which comes with full half-inch back panels, complete with solid wood dovetail drawers, enhanced by a soft-close feature and full extension under-mount glides to create a smooth glide. The cabinetry is equipped with ¾" fully adjustable shelves, which provide supreme durability, and six-way adjustable soft close hinges for flexibility. Light-colored wood interiors allow for practicality and ease of maintenance.



‹ Classic

The Classic series is composed of ¾" vinyl laminated plywood with a frameless box construction. The metal drawers are outfitted with full extension, under-mount drawer glides, as well as the soft-close feature. The six-way adjustable soft close hinges, ¾" adjustable full-depth plywood shelves, and dowel and glue-clamped assembly construction create a solid, durable framework for your cabinetry.



‹ Country

The Country series is constructed from all plywood cabinets and drawers. The wall and base cabinets are equipped with ¾" plywood adjustable shelves and four-way adjustable hinges, reinforced for extra durability by a metal clip fastener assembly system.
